“Welcome to the real world, and don’t forget to look up.” The mission of an ordinary fantasy RPG is to immerse the players in an adventure full of myths, magic, and a world of monsters. In contrast, this title is a fantasy action game that involves various action elements while looking toward a RPG and fantasy feeling. ■ About Tarnished A descendant of a fallen and rich elven house, Tarnished was a proud and noble noble at that time. However, after an incident where he abused his power, he fell into disgrace and humiliation. Eventually, he was dispatched to a distant land in the Lands Between, which was called the “Lands Between.” There, Tarnished met another elf. Through their conversation in that harsh environment, Tarnished determined that his only way of escape was to become an elf in that desolate land. ■ About Uther Uther is the main character in the game and a member of a warrior race. However, the destiny for him to become the leader of his warriors lies far behind. He came from a great past and once was feared, but now is forced to bear the sense of disgrace and humiliation for being the same person as Tarnished. ■ About High Elves The race of elves who lived in the deep forest, called “Elves,” is the primary race in this fantasy world. They have a high mechanical ability and have mastered magic. Elves refer to other races as non-elves, and they respect them as the main ally. ■ About Dwarves A race of miners who live underground in a closed environment, the dwarves are a hard-working and courageous people. Some of the dwarves live in underground cities while others live by their wits in the wide-open land. ■ About Gnomes A race of intelligent, skilled craftsmen, gnomes are quiet in their rituals. They live in a stone environment, which is very cold and dark, and also work in underground mines. They care deeply about their people, and are people who are capable of sacrificing. when the G-20 summit is over... and we come together as friends for a successful and successful outcome, but, of course, we must prepare for that. And, we must prepare ourselves. I know that the European Commission has announced a review of trade-distorting subsidies, which we hope will strengthen our position. But we must prepare

Demos and availability. Demos are available online and in retail stores. Launch day is September 5, 2016 in Asia. I know that this is an old post, but I feel impelled to respond to it anyway. I have been typing the answer for hours but there still is no logic written I just don't understand why people get so mad about non believers. It is not some big insult or a real harm. It IS only a suggestion. That anyone wants anything without a scientific explanation means they will take some liberty of whom to believe in. I just don't understand why people get so mad about non believers. It is not some big insult or a real harm. It IS only a suggestion. That anyone wants anything without a scientific explanation means they will take some liberty of whom to believe in. Actually, it does not mean any liberty of believing. Actually, any scientific explanation is the vital criterion for our credibility as a species. Moreover, non-believers can set up a position that has a broader frame of reference; which leaves as adequate a solution to its problems, in creating a better, more balanced and fair world, perhaps, than any believer's. If you still think this is an insult, I trust that the close inspection, as regards your second sentence, will cause you to see (or remember) the clear deletion, by me, of the word 'prophet' in the following sentence: "This is why the people who do not believe in something that science has discovered, with what reasoning they can be thinking about them, is a far greater insult to them than to us, who want to leave as much things to our imagination". A couple of points here: Firstly, if they want to leave things to "imagination", that is their choice, of course, and there has to be some other rationale. Next, I do not understand your objection to believing. Why not? Of course you have the choice, believe or not. Ah, now that makes sense. A religious god brings different qualities into the world than I would like to see, and using science to further verify the

PC - November 12, 2016 T/N: Starting the past, I had to copy the image from a webpage and hide it using Irfanview - this. The video was cut and I wouldn't have had a clue how to edit it without all the help from my dear friend OhAmigo. I can't thank you enough for your patience and support. I hope you guys like the outcome! I originally planned on posting more stuff, but due to some time management issues I didn't have the time or opportunity to finish it. As such, there will be other videos on my channel soon and with your help I'll try to make them as good as possible. Game Hub - November 13, 2016 Just a quick note to thank OhAmigo for his long time support and guidance. I originally intended to release this today, however I have been delayed. I think I will be able to release it next week or the week after, but due to personal issues I need time to rest and recuperate. With your continued support, I will try to show my appreciation in more videos. You can see the thoughts of such a beloved individual captured on film.
